

BEGINNING STUDIO, SPRING TERM 2023

ARCH-1020: Introduction to Architecture

Spring term, 2023 [rev. 2022-11-01]

Lecture: Thursdays, 1:45-3:15pm

Design Studio Recitation: Tuesdays

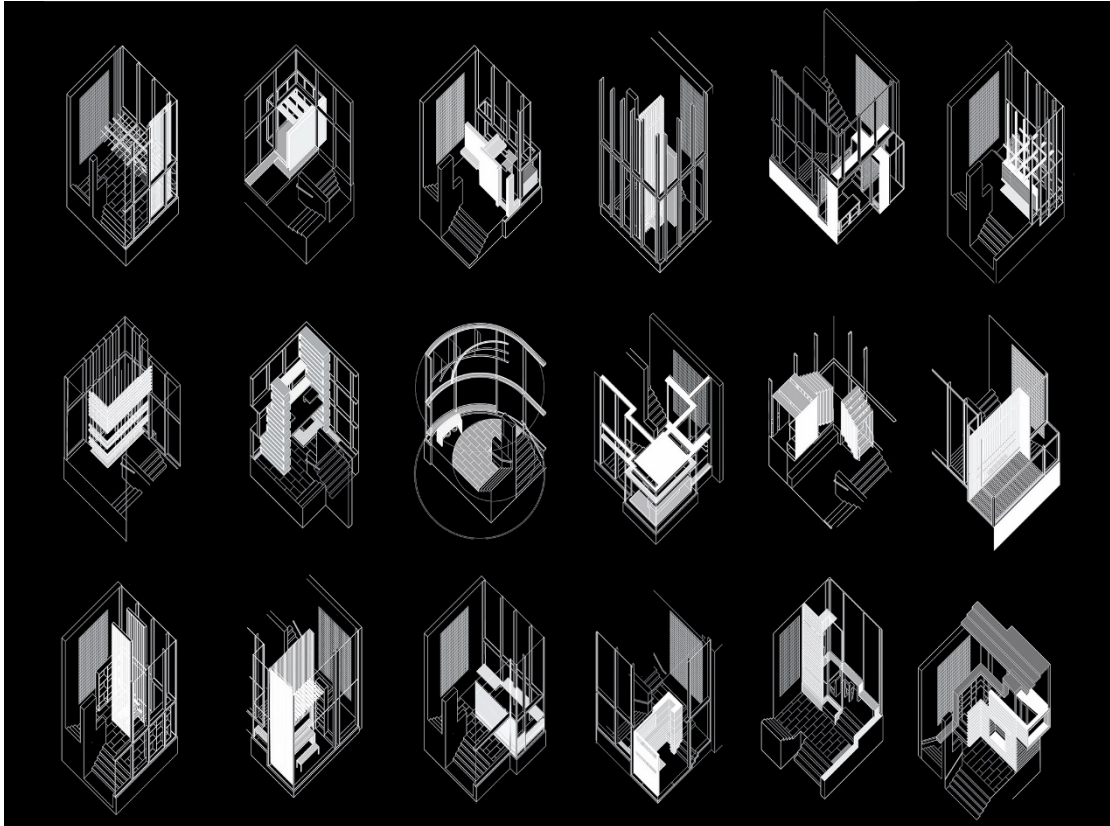

Section 201: 1:45-3:15pm

Section 202: 3:30-5:00pm

Section 203: 5:15-6:45pm

Instructors: Scott Aker, akerscot@design.upenn.edu

Richard Wesley, rwesley@design.upenn.edu

University of Pennsylvania, Undergraduate Architecture ARCH 1020 student work, Venice Biennale (2020)

Course Description

ARCH 1020 fulfills a course requirement in both the architecture major and minor. This course introduces architectural representation and design thinking skills, developed around each student's capacity to observe the built environment, interpret design possibilities, and translate concepts into a three-dimensional form engaged within its context.

Software tutorials in the course will introduce fundamental skills necessary for describing, projecting, and fabricating a design project. Tutorials include freehand sketching, orthographic projection, illustrator, photoshop, and digital drawing programs (Rhino/CAD) required for producing three-dimensional architectural models.
