

PHIL 3600
Section 301, CRN 79870
Topics in Theoretical Philosophy

Instructor: Carlos Santana (csantana@upenn.edu)

Philosophy of the environmental sciences

This seminar covers current scholarship in philosophy of science about topics such as climate science, restoration ecology, conservation science, and planetary science.

Grades will be based on:

- participation in seminar discussions and in-class activities
- short reading response writeups
- a term paper

Please email Prof. Santana with any questions
